6. Transportation

In Carinthia, nearly all public transportation will be for free during your stay. When checking in at your hotel, you should receive a code that you can enter into an app to activate your public transport pass. Please make sure to ask your hotel at check-in for further information and this code.

7. The Austrian Krampus Tradition

Krampus is a traditional Alpine figure with scary masks, horns, fur costumes and large bells. During the Krampus season, parades take place throughout Carinthia. A Krampus parade is scheduled in Klagenfurt on **November 21**, so you will very likely encounter one or several Krampus figures during your stay!

Don’t worry! It is a local tradition and nothing you need to be afraid of. As part of this tradition, Krampuses may playfully give spectators a light tap with their traditional rods or sticks. However, please **never touch or pull their masks or horns**, as this can seriously injure the person wearing them.

If you feel uncomfortable or are afraid of the Krampuses, we recommend staying away from the city centre during and immediately after the parade. Otherwise, enjoy this unique and exciting Austrian tradition!
